

Accessories

Tamper

Different padfoot widths

Suitable working widths for flexible applications ranging from small trenches to areas with high surface coverage. Optional side protection plates as an additional wear protection for the tamper foot. 160*, 200*, 230, 240*, 280, 290* and 330* mm width.

*incl. side protection

Padfoot extensions

Flexible operation when working in narrow, deep trenches (e.g. mini-trenching). Operator does not need to stand in the trench. 150 x 120 mm (w x h)
100 x 370 mm (w x h)
150 x 370 mm (w x h)

Transport wheels

Facilitate the manual transport of a tamper even on rough ground. Puncture-proof tyres. Mechanism suitable for all models.

Accessories

Vibratory plates

Water spraying system for asphalt work

The water spraying system distributes the water evenly across the whole working width and prevents asphalt from sticking to the base plate. For BPR 25/40, BPR 25/40 D, BPR 25/50, BPR 25/50 D and all single direction vibratory plates except BVP 10/30.

Guide bar middle position

The middle position is an alternative to the standard position of the guide bar and increases the machine's manoeuvrability allowing it to work easily in corners and up to walls. BP 12/50 A, BP 20/50, BP 25/50.

Comfort bar

The HAV values of the machine are below 2.5 m/s². Regulation-compliant, fatigue-free working. Simplified risk assessment. For all BPs and BVPs except for BVP 12/50 A.

Vulkolan mat for paving work

Easy to install. To effectively use the vibratory plate during paving work. Protects the paving stones, prevents marks and reduces the risk of breakage. Not for BPH 80/65 S, BPR 100/80 D, BP 12/50 A and BVP 12/50 A.

Accessories

Transport wheels

For all single direction and reversible vibratory plates. Facilitate the manual transport of a vibratory plate even on rough and loose ground. Puncture-proof tyres. For all vibratory plates <300 kg (except BVP 10/30 BVP 12/50 A).

Electric starter with warning buzzer

To start the machine comfortably. Available for the reversible vibratory plates: BPR 35/42 D, BPR 35/60 D, BPR 40/60 D. Electric starter as BPR series > 350 kg.

Flexible working widths thanks to replaceable extension plates

Flexible working widths thanks to replaceable extension plates. Suitable working widths for every application ranging from small trenches to areas with high surface coverage. For reversible vibratory plates > 350 kg. Not for BPH 80/65 S.

Tip control

Steering with both hands possible at any time. Full control over the machine thanks to direction change using only one thumb and a safety switch. With integrated city mode. BPR 70/70 D, BPR 100/80 D.

Accessories

Hand-guided vibratory rollers

Cleaning rod

Rod and holder for quick and easy cleaning of scrapers and spray tubes. For BW 65 and BW 65 D.

Warning lights

Enhanced safety through visual warning with flashing LED. For BW 65 and BW 65 D.

Multi-purpose compactor

Radio remote control

Trouble-free operation even under difficult job site conditions. All important functions at a glance thanks to clearly visible LEDs on the display.

Charger

While one battery remains in the lightweight, ergonomically designed remote control, the second can be topped up with the optional charger. This can even be integrated into the trench roller's storage compartment.

Accessories

Light Equipment

Service Kits

Contain all necessary parts which are required for servicing and maintaining of the machines. Simple and reliable ordering of all the parts required.

Special paint finish

Painting the machine with an own design.

ECONOMIZER

Displays degree of compaction in real time. This saves time and costs by avoiding unnecessary passes and always achieving the optimum level of compaction. Warns against overcompaction and grain breakage and identifies weak spots in the ground. BPR >350 kg, BMP 8500.

Batteries and chargers

For operating battery-powered machines. Vibration-resistant design, tool-free installation and full compaction performance at the touch of a button. Battery variants: eP 20 (20 Ah)
eP 28 (28 Ah)
Chargers: Standard charger (charging time <4 h)
Quick charger (charging time <2 h)

Accessories Tough Warranty

3-2-1 warranty as standard

When you offer high quality, you can also provide extensive warranty cover!

Type	3 years for	2 years for	1 year
BT Tamper	Spring and guide unit	Combustion engine, electric motor / rechargeable batteries + converter	Standard warranty
BP/BVP Single direction vibratory plates	Exciter gears	Combustion engine + electric motor, rechargeable battery, converter	Standard warranty
BPR Reversible vibratory plates	Exciter gears + hydraulic travel lever control + ECONOMIZER	Combustion engine	Standard warranty
BPH Reversible hydraulic plates	Exciter gears including vibration drive	Combustion engine	Standard warranty
BW Hand-guided vibratory rollers	Exciter unit + clutch + vibration drive	Engine	Standard warranty
BMP Multi-purpose compactor	Exciter gears + vibration drive + drums + ECONOMIZER	Combustion engine	Standard warranty

BOMAG warranty conditions apply.

PRODUCT OVERVIEW

LIGHT EQUIPMENT.

Tamper

Areas of application:
Soil and asphalt compaction, trench and pipeline construction, backfilling, foundations and repair work on asphalt.

Type	Operating weight (CECE) kg	Working width mm*	Engine manufacturer
BT 60	58	230	Honda (4-stroke gasoline)
BT 60 e	71	230	Asynchronous motor
BT 65	68	280	Honda (4-stroke gasoline)

*Additional working widths available

Single direction vibratory plates

Areas of application:
Soil and asphalt compaction, paving work. Repair work in road and pavement construction, trenches and landscaping.

Type	Operating weight (CECE) kg	Working width mm	Engine manufacturer
BP 10/35	65	350	Honda
BP 12/40	72	400	Honda
BP 12/50 A*	82	500	Honda
BP 20/50	95	500	Honda
BP 20/50 D	109	500	Hatz
BP 25/50	108	500	Honda
BP 25/50 D	122	500	Hatz
BVP 10/30	47	300	Honda
BVP 10/36	83	360	Honda
BVP 12/50 A*	72	500	Honda
BVP 18/45	91	450	Honda
BVP 18/45 D	104	450	Hatz
BR 95	92	450	Honda
BP 10/36 e	92	360	Asynchronous motor
BP 18/45 e	97	450	Asynchronous motor

*Special plate for asphalt construction

Reversible vibratory plates

Areas of application:
Soil and asphalt compaction, block paving, paths, roads and rail tracks, backfills, trench and sewer construction, landscaping, foundation construction.

Type	Operating weight (CECE) kg	Working width mm	Engine manufacturer
BPR 25/40	135	400	Honda
BPR 25/40 D	150	400	Hatz
BPR 25/50	140	500	Honda
BPR 25/50 D	155	500	Hatz
BPR 35/42	190	420	Honda
BPR 35/42 D	210	420	Hatz
BPR 35/60	205	600	Honda
BPR 35/60 D	225	600	Hatz
BPR 40/60 D	260	600	Hatz
BPR 45/45	340	450	Honda
BPR 45/55 D	400	550	Kohler
BPR 50/55 D	405	550	Hatz
BPR 55/65 D	455	650	Kohler
BPR 60/65	420	650	Honda
BPR 60/65 D	460	650	Hatz
BPR 70/70 D*	570/580	700	Hatz
BPR 100/80 D	700	800	Hatz
BPH 80/65 S**	750	800	Hatz

*Available with comfort bar or TipControl, **remote control, hydraulic drive

STONEGUARD – the paving plate

Areas of application:
Block paving. Concrete blocks, natural stones (cut/diamond sawn), chamferless stones, large formats, sensitive surfaces and stone formats, large areas, less damage to property.

Type	Operating weight (CECE) kg	Working width mm	Engine manufacturer
STONEGUARD			
BPR 25/50 D	169	530	Hatz
BPR 35/60	228	630	Honda
BPR 35/60 D	248	630	Hatz
BPR 50/55 D	440	680	Hatz
BPR 55/65 D	482	680	Kohler
BPR 60/65	447	680	Honda
BPR 60/65 D	487	680	Hatz

Hand-guided vibratory rollers

Areas of application:
Soil and asphalt compaction. New construction and repair of pavements, verges, cycle paths, driveway and garage entrances, children's playgrounds, tennis courts and sports fields, as well as construction of farm and forest roads.

Type	Operating weight (CECE) kg	Working width mm	Engine manufacturer
BW 55 E	150	560	Honda
BW 71 E-2	488	710	Hatz
BW 65	720	650	Honda
BW 65 D	740	650	Kohler
BW 75 H	1040	750	Yanmar

Multi-purpose compactor

Areas of application:
Soil compaction. Trench and pipeline construction, backfilling and foundation work – wherever high demands are placed on mobility, manoeuvrability and ease of operation coupled with difficult ground conditions.

Type	Operating weight (CECE) kg	Working width mm	Engine manufacturer
BMP 8500*	1595	610/850	Kubota/Kohler

*Standard with cable/wireless dual-control

Machines may be shown with optional accessories.

The company:

BOMAG is the global leader in the field of compaction technology. The company, which has its HQ in Boppard and has belonged to the FAYAT group since 2005, produces machines for soil, asphalt and refuse compaction as well as stabilizers / recyclers, milling machines and pavers.

The company has six branches in Germany and 11 independent subsidiaries. Over 400 dealers in more than 150 countries guarantee the global distribution of BOMAG machines and their maintenance.
